### DETAILED ACTION

1. Claims 2-29 are rejected under 35 U.S.C. 103(a) as being unpatentable over Neale et al (WO 9746591) in view of Kightlinger et al (3,884,909).

The claims are rejected for the reasons stated in the previous Office Action, Paper No. 5.

2. Applicants' arguments have been considered but are deemed unpersuasive of patentability. The arguments are premised on the difference in the nature of the crosslinking between the Neale et al and Kightlinger et al. The rejection is not based on the crosslinking process in Kightlinger et al but rather on the selection of degraded starch as the form of starch to be used in Neale et al. It is again noted that Neale et al discloses degraded starch as one of the starches that can be used. Kightlinger et al was merely cited to reinforce the selection of degraded starch as the starch to be used in Neale et al.

3. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of

the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
